MEXICANS FIRE ON U. S. FLIERS

PRIVATE OWNERSHIP OF ROADS AND REGIONAL OPERATION BY THE GOVERNMENT PROPOSED

WASHINGTON, D. C., Sept. 2.—Private ownership and operation of railroads in a number of regional systems under strict government control, with strikes and lock-outs of railroad employees prohibited, is the plan for permanent railroad legislation submitted to the Senate today by the interstate commerce sub-committee.

A tentative bill embodying the sub-committee's recommendations which bear resemblance to the Elkins plan, has been introduced by Chairman Cummins and referred to the full interstate commerce committee. The bill is the result of many months of hearings and work by the sub-committee which includes Mr. Cummins, and Senators Kellogg, of Minnesota, and Pennington, of Washington, Republicans, and Pomeroy, of Ohio, and Robinson, of Arkansas, Democrats.

Salient provisions of the Cummins bill include:

Termination of government control and return of the railroads to private ownership on the last day of the month of enactment.

Establishing the interstate commerce commission with greatly increased powers, as the supreme body over railroad affairs.

Supervision and control of virtually all railroad affairs, including rates, wages, operation and financial by the government.

Creation of a new railway transportation board of five members appointed by the president, to supervise railway development and operations, subject to final action of the interstate commerce commission.

Creation of a new commission of wages and working conditions, composed equally of representatives of employers and employees, with wide authority, in settling labor questions, subject to decision of the transportation board and interstate commerce commission.

Prohibiting strikes and lock-outs of railroad employees under fine and imprisonment penalties.

Declaring a new policy for concentration in ownership and operation of railroads, with federal incorporation, into not less than 20 or more than 35 regional systems.

No guarantee by the government of future railroad income, but limitations made up on revenue to "fair" dividends based on value of properties fixed by the interstate commerce commission.

The bill also provides that existing railroad payment contracts with the government shall be continued not more than four months and that present rates shall continue until changed by the interstate commerce commission.

The keynote of the sub-committee's bill, Chairman Cummins stated in an explanation to the Senate, is the plan for establishment of 20 to 35 regional rail systems.

The new method for settling labor disputes is a proposed committee of wages and working conditions, Senate.

FRENCH LOSSES OVER FOURTH OF HER FORCES

PARIS, Sept. 2.—Captain Andre Tardieu, speaking for the government during the debate in the chamber of deputies this afternoon on ratification of the German treaty, said the French war losses constituted 26 percent of the men mobilized. Fifty-seven percent of all men with the colors under 31 years of age were killed.

MASSACRE ITALIAN SOLDIERS

BEGRAD, Sept. 2.—Numbers of Italian soldiers have been massacred in severe attacks by Albanian clansmen, according to the Politika of this city. The remainder of the Italian troops retired toward Durazzo and other strong points.

TO DEMAND REPLY FROM RUMANIA

PARIS, Sept. 2.—The supreme council today discussed the failure of Rumania to make written responses to the council's notes. It is likely the council will send an ultimatum in the near future with an emphatic note demanding an immediate response by Rumania to the council's communication.

CHARGES AGAINST KAROLAI

BERLIN, Monday, Sept. 1.—(By the Associated Press.)—Hanns Balthasar, brother-in-law of former Hungarian premier, Count Tisza, has filed charges with the police at Budapest against Count Michael Karolai, also a former premier, alleging that Count Karolai admitted for the murder of Count Tisza, and participated in the crime, according to a Budapest dispatch to the Tages Zeitung.

ON DELICATE MISSION

PARIS, Sept. 2.—Cardinal Mercier, primate of Belgium who leaves today for the United States, has been entrusted with a delicate mission in that country by the Holy See, according to the Journal. The newspaper says that the cardinal will lay before President Wilson his views concerning the League of Nations.

YOUNGSTOWN HAD QUIET DAY

YOUNGSTOWN, O., Sept. 2.—Theft of one thousand morphine tablets from a physician's office, robbery of two safes, three other burglaries and a holdup marked a continuation of criminal activities here over labor day.

JUDGE LINDSEY FACES JAIL TERM FOR KEEPING BOY'S CONFIDENCE

The boy, Neal Wright, his mother and her baby, and Judge Lindsey.

Because he refused to tell in court the story that Neal Wright had given him in confidence, Judge Lindsey has before him the early prospect of 250 days in jail. The sentence was given for contempt of court by the judge who presided at the trial of Neal's mother for the murder of her husband. The boy took the stand and said that it was he and not his mother who fired the shot. He was twelve years old at the time. Now he is a soldier in France. His story gained his mother's freedom, and the indications are that the only person who will suffer for the murder is the famous "hired judge."

NATIONAL SOCIALIST PARTY BROKEN UP INTO THREE DISTINCT GROUPS

CHICAGO, Sept. 2.—At a meeting held until an early hour this morning and which was marked by acrimonious debate, the communist wing of the national Socialist party adjourned until later in the day. Ten policemen were assigned to the meeting, whose presence, according to several of the members, prevented an outbreak more pronounced than words. The object of the meeting was to arrange a basis for union of the communist and left wing Socialists.

The delegates to the convention divided yesterday into three groups—the communists, left wing, right wing. The latter group was said to represent the more conservative element, while the other two were reported to be composed of radicals. The communists are said to favor the principles recently set forth by the Russian revolutionaries. It was expressed by some delegates that a union of the two radical wings of the party would be effected today.

EMBARGO ON MILK BY THE PRODUCERS

CLEVELAND, O., Sept. 2.—Cleveland had only 85 percent of her milk supply today as a result of an embargo voted on by more than 100 Cuyahoga and Geauga county farmers at Cuyahoga hospital. The farmers demanded 40 cents a gallon, an increase of 5 cents over the present price and two cents more than they were to receive for September.

A grand jury investigation of the producers action will be made according to Stephen Young, assistant county prosecutor.

The Ohio Farmers' Cooperative Milk Company, several whose officials were indicted by the special grand jury for alleged violation of the Valentine anti-trust law, has taken no part in the embargo, according to H. W. Ingersoll, of Elyria, its president.

CASINO UTSETS—TWO DROWN

YOUNGSTOWN, O., Sept. 2.—William P. Belmont, 21, and Fred A. Belmont, 19, of Canton, were drowned in Lake Embury, Mill Creek Park here, yesterday, when their canoe overturned.

Ten Men Scalded

AKRON, O., Sept. 2.—Ten men were scalded, seven seriously, this morning in an accident in the curing room of the Kelly-Springfield Tire Company here. Steam and hot water spouted over the workers when they took the lid off a curing tank. All the injured were taken to hospitals.

Three of the injured, Mike Stulera, 25, Pat McCarthy, 35, and Ira M. Garaville, 34, may die.

Officials of the company say the accident occurred when a steam lid in the curing room whose molds had been "boiling" since Saturday was lifted before all the pressure had been removed.

EUROPE IS IN NEED OF BIG CREDITS

PARIS, Sept. 2.—Appearing today before the sub-committee of the congressional committee on war expenditures, Herbert Hoover, director general of inter-allied relief, said he believed it imperative for the United States to extend to Europe credits of from \$3,000,000,000 to \$4,000,000,000 for a year and a half or two years in order to provide a market for the American surplus and save Europe from disaster.

The credits, Mr. Hoover declared, should be issued to establish European merchants, under guarantee of their own governments, and a guarantee in turn should be given by the United States to the American merchants in interest.

He discouraged the idea of general control of the transactions by the government, urging the necessity of preserving the regular commercial organizations.

BOLSHEVIKI SURROUNDED

COPENHAGEN, Sept. 2.—The Lithuanian revolutionaries, who are surrounded on the Lithuanian front, are offering to make peace with the Lithuanians, whose advance continues.

FIUME MAY BECOME A BUFFER STATE

PARIS, Sept. 2.—(Havas)—The Fiume problem will be solved by an agreement that the city shall become a buffer state with an extended hinterland, according to an interview with a Fiume official, who is in the city for the first time since the Italian occupation.

The article declares that Fiume will be under a regime that will assure the Italian character of the city, being governed by a council composed of two Italians, two Yugoslavs and one citizen of Fiume. The city of Zara, it is said, will be under Italian rule, according to the interview, will resume her sovereignty over the territory of Trieste. In the central part of the Salama desert, but will receive concessions from the French in Egypt, Asia Minor, where there is a coal field, and in Anatolia.

SPARTACAN ON TRIAL

MUNICH, Monday, Sept. 1.—(By the Associated Press.)—Fritz Seidl, the former Spartacan leader, who is charged with responsibility for murder of President Ebert, is on trial today, with 15 alleged accomplices here.

The prisoners were arraigned before the people's court, a new Bavarian tribunal, which is sitting in the new palace of justice.

CHARLES MAKES PROTEST

BERNE, Sept. 2.—Former Emperor Charles of Austria-Hungary has written to a Swiss friend, privately protesting against rumors regarding alleged flagrant intrigues in Switzerland. He says in the letter that he has always faithfully kept his promise to abstain completely from political activity while in Switzerland, adding: "My fate for the present is silence and waiting."

AMERICAN OFFICER IS WOUNDED

LAREDO, TEXAS, Sept. 2.—Two American aviation officers, on border patrol duty, were fired upon today by a group of Mexicans while flying up the Rio Grande near here, and one of the officers was wounded in the head.

Captain Davis R. McNabb was the officer wounded and his companion, Lieutenant Johnson, brought the machine safely to earth on the American side. McNabb was taken to a farm house and an airplane with a surgeon and medical supplies was rushed to his aid from headquarters here.

The officers were flying low about 16 miles up the Rio Grande from here near Santa Isabel Creek, when suddenly on the Mexican side about 25 Mexicans rose up from the brush and poured volley after volley into the plane.

It was reported several hundred shells were fired.

FACES DEATH WITH WIFE

CHICAGO, Sept. 2.—"I'll stay with you, Mary." With these words William F. Tanager, a washer in the offices of the Baltimore and Ohio railroad here, closed his eyes, embraced his wife, whose foot was caught in a railroad frog, and was killed with her, when a limited train on the Chicago and Northwestern railroad crashed into them last night.

John Miller, a flagman, in attempting to rescue the couple, lost his left leg and sustained a fracture of the right arm.

Three little children are orphans today because of the fateful decision of Tanager to die with his wife.

MORROW COUNTY WINS VICTORY SHAFT CONTEST

COLUMBUS, O., Sept. 2.—Morrow county is the winner of the victory shaft contest in the selling of war saving stamps; in Ohio, according to unofficial reports received today by state war savings headquarters here. For selling the largest amount of stamps per capita, Morrow county will receive a marble memorial shaft to commemorate its deed in the world war.

Since June 1, Morrow county sold approximately \$20,000 worth of stamps, or a per capita sale of \$14.45. Although Licking county sold more than twice as many stamps, approximately \$50,000 worth in the same period, its per capita is only \$10.78. Warren county came third with a per capita sale of \$7.76.

Until the Ohio war savings committee checks the reports from the post office department and Federal Reserve Bank there will be no official award.

The three leading counties in the victory shaft contest purchased more than \$1,000,000 worth of stamps in 90 days and the 88 counties of Ohio during the same period bought \$5,000,000 in stamps, giving Ohio a lead over all states in the union in aggregate sales, including New York, or nearly 100 per cent more than any other state.

SPECULATION IN U. S. AND THROUGHOUT WORLD BLAMED FOR THE HIGH PRICE OF FOOD

PARIS, Monday, Sept. 1.—A distressing era of speculation in foodstuffs in the United States and throughout the world's primary food markets is largely responsible for high food costs, in the opinion of Herbert Hoover, chairman of the inter-allied relief organization, who on the eve of his departure for the United States, granted the Associated Press an interview today.

Warehouses and warehouses in northern European ports are overflowing with foodstuffs, especially meats, fats and dairy products, sent by merchants all over the world, Mr. Hoover said. These merchants, he declared, had gambled "on wheat" in Poland, Czechoslovakia, the Baltic states and Germany at high prices, but these states have only a depreciated local currency and many commodities are in danger of spoiling as the central European market for foodstuffs is limited to the ability of the people to pay on credit.

"This year's speculations," Mr. Hoover said, "are also, in my opinion, chiefly to the belief of food merchants and manufacturers that when the blockade was removed there would be an enormous demand for foodstuffs and other commodities in central and eastern Europe."

Asked how food speculation could be checked in America, Mr. Hoover replied:

"Attorney General Palmer is on the right track when he endeavors to break down speculation and seeks to secure powers never possessed by former administrations to enable him to accomplish this step. The situation is one that may well cause anxiety also from another point of view. We are now coming into a flood of production of foodstuffs in the northern hemisphere and will again have a great surplus in the United States. If, in the meantime, Europe has not found credit to purchase the coming winter's supplies, we are likely to have a glut and prices may fall below the cost of production to American farmers."

"The present high prices of food are not due to overproduction in Europe from the United States during the past year."

Best Treatment for Catarrh S. S. S. Removes the Cause

For the Blood
Once you get your blood free from impurities—cleared of the catarrhal poisons, which it is now a prey to because of its unhealthy state—then you will be relieved of catarrh—the dripping in the throat, hawking and spitting, raw sores in the nostrils; and the disagreeable bad breath. It was caused, in the first place, because your impoverished blood was easily infected. Possibly a slight cold or contact with someone who had a cold. But the point is—don't suffer with catarrh—it is not necessary. The remedy, S. S. S., discovered over fifty years ago, tested true and tried, is obtainable at any drug store. It has proven its value in thousands of cases. It will do so in your case. Get S. S. S. at once and begin treatment. If you are a long standing case, be sure to write for five expert medical advice. We will tell you how this purely vegetable blood remedy cleanses the impurities from the blood by literally washing it clean. We will prove to you that thousands of sufferers from catarrh, after consistent treatment with S. S. S., have been freed from the trouble and all its disagreeable features. Don't delay the treatment. WILSON REFUSES SENATE COMMITTEE THE LATEST DRAFTS OF PEACE TREATIES

WASHINGTON, Sept. 2.—The request of the foreign relations committee for the latest drafts of the proposed treaties with Germany's allies has been refused by President Wilson on the ground that compliance would set a precedent encouraging senatorial encroachment on the presidential power of treaty negotiations.

In an exchange of letters made public today, Mr. Wilson wrote that it was "out of the question" to accede to the committee's suggestion, and Chairman Lodge replied that although the treaties were closely connected with the treaty with Germany, the President undoubtedly had authority to keep information about them from the senate if he chose.

Brings Another Impasse
The correspondence, apparently brought another impasse between the president and the committee on the much debated subject of what information the senators should have in their consideration of the treaty with Germany. Mr. Lodge and others have declared the committee could not act intelligently until all of the Versailles treaties were before it, but at the White House conference Mr. Wilson told the committee that the form to be taken by the four treaties under negotiation depended largely on the senate's action regarding the instrument now before it.

A copy of the agreement of June 10 relative to future draft also was debated the committee, the President writing that it would become pertinent after the treaty was ratified and that its publication might be embarrassing to other governments. In this Senator Lodge replied that it already had been published in a British white book and from that source had been circulated in this country through the Congressional Record.

The correspondence was made public by Mr. Lodge, who indicated that no further effort would be made by the committee in the matter. The committee did not meet today, but tomorrow it will resume its hearings and probably will have another executive session to work on proposed amendments and reservations to the treaty with Germany.

The only amendment pending before the committee now is a proposal by Senator Fall, Republican, New Mexico, to strike out the provision for an international labor organization. When the question of amendments has been disposed of, drafting of the ratification resolution will be taken up. It is expected that the committee draft will include several reservations to the League of Nations covenant.

Look on the Best Side.
What an absurd thing it is to pass over all the valuable parts of a man and fix our attention on his infirmities!

"Wonderful Local Lady's Tribute When Relief Comes"
"It's wonderful" was the brief yet convincing message in which Laura Nichols, 44 years old of 517 Seventh street, Portsmouth, recently expressed her high regard for Trutona, the perfect tonic.

"I had been suffering from a nervous trouble for the past five years," she said. "My stomach was out of shape too. My appetite was poor and I was usually in a constipated condition. For the past two or three months, I haven't eaten hardly enough to keep a bird alive."

"The good I've derived from Trutona in the short time that I've been using the medicine is simply wonderful. Why, I haven't experienced one of my nervous spells since I began using Trutona. As for my appetite—I can eat anything now and I enjoy the food more than I have for some time. In short I feel better and stronger in every way now. I think Trutona is a wonderful medicine and I can recommend it to anyone troubled as I was and feel sure it will help them."

Trutona is now being introduced and explained in Portsmouth at Wurst Brothers' drug store.

"DO IT NOW, TODAY"
If your vacation this year has not renewed your strength and vigor, as you had hoped, do not be discouraged. You are not the only one.

The havoc of war is with many of us still. Others have given their systems a real uplift with Hood's Sarsaparilla. Peptone and Hood's Pills, creating an appetite aiding digestion, perfecting assimilation, and stimulating the liver to a normal activity so that the blood and the system receive the nutrition that improves health and makes strength.

One package of each medicine will probably be all you will need. This is a specialized treatment, and the combination is reasonably sure to reach your case and bring normal health if it is in the power of any medicine to do it. Begin now, today.

The Moore Oil Refining Co. is incorporated under the laws of Ohio and the
stock is exempt from the Normal Federal Income Tax. The Corporation acquired
all of the property and assets of the Moore Oil Co., the business having been es-
tablished in Cincinnati in 1880.

The following information is summarized from the accompanying letter of
Mr. B. G. Dawes, President of the Ohio Cities Gas Company:

PURPOSE OF ISSUE

Proceeds from this sale of this issue of Preferred Stock are for the further ex-
pansion of the business.

HISTORY

The business was originally established in 1880 by Chas. H. Moore. The com-
pany distributes gasoline and lubricating oils, and manufactures greases,
paints, soap and other by-products; also does a large business in linseed oil
and turpentine.

GROWTH OF BUSINESS

The volume of business shows a consistent and steady growth. Total sales are
now on a basis of over five million dollars per annum, compared with one mil-
lion dollars in 1912.

EARNINGS

Earnings cover dividends on the outstanding Preferred Stock about four
times over, without the profits resulting from the investment of the proceeds
of the stock herein offered.

THE OHIO CITIES GAS COMPANY

COLUMBUS, OHIO, August 15, 1919.

Claude Ashbrook & Company,
Cincinnati, Ohio.

Gentlemen:—Referring to the public offering of \$1,000,000 Pre-
ferred Stock of The Moore Oil Refining Company of Cincinnati, Ohio, by
your firm, we have to say: The Moore Oil Refining Company is a subsidiary
of the Ohio Cities Gas Company, and was purchased in April, 1919. The
proceeds from the sale of this public offering of Preferred Stock will be
used in the future expansion of the business of The Moore Oil Refining
Company.

The business was founded in 1880 by Charles H. Moore and has had a
continuously successful career. Its principal business is the marketing of
kerosene and gasoline and the compounding and marketing of lubricating
oil through three central plants at Cincinnati, Ohio; Columbus, Ohio, and
Logansport, Indiana, and by a system of tank wagons, drive-in stations and
traveling salesmen. The company also manufactures grease, soap, com-
pounds and textile mill products and does a large business in paints, lin-
seed oil, etc.

The continuous growth of the business is indicated by the following:

1911	\$ 854,461.00
1912	1,018,978.23
1913	1,492,263.85
1914	4,295,713.18
1915	1,468,236.17
1916	2,297,453.03
1917	3,444,553.05
1918	3,972,607.00
From Jan. 1, 1919, to July 1, 1919.	2,711,574.32

The increase in business has been more rapid since the company came
under control of The Ohio Cities Gas Company.

The Ohio Cities Gas Company owns at Cabin Creek, West Virginia, a
3,000-barrel refinery, turning out the famous Cabin Creek oil. This
source of supply fortifies The Moore Oil Refining Company and makes it
the marketer of the highest grade oils in the world, and to further fortify
it, as well as the Ohio stations of The Ohio Cities Gas Company, the latter
company is erecting at Heath, Ohio, a modern 3,000-barrel oil refinery.

The earnings of The Moore Oil Refining Company are at a rate sufficient
to pay four times over the total charges on the outstanding Preferred
Stock without the benefits resulting from the investment of the proceeds of
this sale.

Very truly yours,
B. G. DAWES, President.

The legal details relating to the organization of the company and the issuance of
stock have been prepared by Counsel.

The Provident Savings Bank and Trust Company, of Cincinnati, is the Registrar
for the stock.

Applications will be made to list Preferred Stock of The Moore Oil Refining
Company on the Cincinnati Stock Exchange.

We offer the above described issue of \$1,000,000 7%, Cumulative, Pre-
ferred Stock for subscription in amounts to suit purchasers.

Price Par, \$100 Per Share, Yielding 7 Per Cent.

Subscription books are now open at the office of the undersigned and will be
closed September 10, 1919, at 3 o'clock P. M.

The right is reserved to reject subscriptions, or, in case of oversubscription, to
reduce allotments.

Outing At Wheelersburg

A number of Italians held an outing Sunday at Wheelersburg. Several young men who are employed in local auto factories completed all arrangements for the all day picnic. A special traction car was chartered to carry the crowd to the picnic grounds. Many Italians and their families attended, the crowd returning about 3 o'clock.

The Prayer Meeting Wednesday evening at 7:30 will be led by Mrs. Alice Gore. All are invited to this service.

SOCIETY

The first Metropolitan Club dance of the season was held last evening in the Hux Hall and proved to be one of the most successful affairs of the summer. A large attendance of young people, including many out-of-town visitors, were present and passed away the evening dancing to the attractive program of fox-trots, one-steps and waltzes, furnished by Wyckoff's Special Jazz Orchestra. The president, Dudley Nichols, has promised that a Metropolitan dance will be held every two weeks during the winter.

The Ladies Aid Society of Franklin Avenue M. E. church will meet Thursday afternoon in the church parlors. The hostesses are Mesdames Ford, George Correll and C. W. Bauer. Every member is urged to be present.

The many friends of Mrs. Ella McCauley Hark will regret to learn that she has decided to make her future home in Columbus. Mrs. Hark, accompanied by her daughter, Mary Margaret, left Monday afternoon for her new home. She has rented an attractive flat in the Willard Apartment building, No. 503 East Gay street. Her nephew, Elmore Ortelser, who is attending O. S. U., will make his home with Mrs. Hark. It being largely on his account that she is moving to Columbus. Mrs. Hark is one of the best known and most successful business women in Portsmouth. She came here thirty years ago and engaged in business, opening a dry goods and notions store on Chillioline street, conducting the business with success for some years. Mrs. Hark invested in real estate and has much property here. She expects to retain her property and will make occasional visits in order to look after it.

The Ladies Aid Society of Granville Avenue Christian church will meet Thursday evening at the home of Mrs. J. Martin, on Campbell avenue, between Seventh and Eighth streets.

At Sept Plant
R. E. (Dick) McGuire of Wheeling has returned here and has taken his old job in the Whitaker-Gleason plant.

The Markets

NEW YORK STOCKS

NEW YORK, Sept. 2—Resumption of trading on the stock exchange after the triple holiday was attended by no other important feature or prices, due chiefly to further improvement in industrial conditions. Early dealings in stocks, equipments, oils, rails, shipwrecks and various other issues whose interests are involved in the labor situation were recorded at gains of 1 to almost 5 points. Noteworthy features included Crucible Steel, Pan-American Petroleum, American Car and American International, General Motors, Steelmaker and Sumatra Tobacco.

Profit taking was invited by the strong opening, causing reactions of 1 to 2 1/2 points, but prices soon mounted to higher levels, under lead of oils, motors and steels, Crucible extending its gain to 5 1/2 points. Additions to early strong features included American Petroleum, Texas Company, American Motors, Atlantic Gulf, American Wheel, American Can and Industrial Alcohol. United States Steel pulled from its fractional setback, food shares made appreciable progress and rails were firm but dull. American agricultural was one weak feature, losing 1 point. Call money opened at 6 percent.

Traders in stocks derived much encouragement today from the more favorable industrial outlook. Extreme advances of 2 to 12 points in various speculative issues were mainly effected at the expense of the charts. Sales approximated 1,100,000 shares. The close was strong.

Schools Opened Today

The Portsmouth public and parochial schools opened this morning with the largest enrollment of students in their history.

The students only registered today but will begin work in earnest Wednesday.

The Portsmouth high school will begin at 8 o'clock and leaves out at 2:15. Instead of 8:20 and 2:25 in late years. Each student will have 20 minutes for lunch and 40 minutes for study at noon.

At 3:30 this afternoon the Union street school was the first to report to Sept. Appel, showing a gain of 31 over last year.

REV. HART PREACHES FAREWELL SERMON

Rev. W. M. Hart closed his pastorate at the Kendall Avenue Baptist church Sunday evening when he delivered a splendid sermon. He will leave Wednesday morning for Cohocton, where he will be pastor of the First Baptist church. Rev. Hart was in charge of the local church four years and one month, his pastorate being one year longer than any previous minister at the church.

The membership expressed their appreciation of his work by presenting him with a substantial purse Sunday night. Rev. Hart serves his connection with the church with much sorrow expressed by himself and his people. He also expressed himself as more than pleased with the help given him by the church. Rev. Hart is also president of the Ministerial Association.

Mrs. Hart and daughter, who are visiting in Indiana will join Rev. Hart in a few days. Rev. Hart had several other tempting offers before accepting the one at Cohocton.

A pulpit committee has been appointed at the church, of which J. B. Hart is chairman, and several ministers will be brought here before one is selected to fill the vacancy caused by Rev. Hart's leaving.

SUNDAY SCHOOL ATTENDANCE

Sunday the Bible school attendance showed a slight increase when a total of 4,703 was registered. Many regular Sunday school attendants were out of the city over Sunday and the holiday and kept down the attendance figures.

Cremeans Is Stricken

William Cremeans of Fourth street suffered a paralytic stroke late Monday afternoon, near his home. He had just left home for a walk starting through an alley near his home, when he fell. Neighbors nearby, seeing him fall, rushed to his assistance and removed him to his home. Dr. J. D. Hendrickson was summoned who later called Lynn's ambulance which removed him to the hospital.

Mr. Cremeans is in a serious condition.

OBITUARY

William Cole
William Cole, well known N. and W. brakeman passed away this morning at 7:15 o'clock at his late home 203 1/2 Walnut street after a short illness of kidney trouble. His death will be mourned by his many friends. He had been ill such a short time, death coming unexpectedly to his loved ones and also his friends. Mr. Cole and family came to this city about two years ago from Bartow, Florida, and worked for the N. and W. having gained many friends here by his congenial manner. The deceased was 34 years of age. He leaves to mourn his death his parents, Mr. and Mrs. J. W. Cole of Bartow, Florida, his wife Mrs. Narcissus Cole and two children William C. Jr. and Herbert and several brothers and sisters. Funeral arrangements have not been completed.

John F. Morton
Senator John F. Morton, who had visited in Portsmouth several times died several days ago at the Snapp Hotel, Excelsior Springs, Mo. He had lived for years at Richmond, Mo. county Missouri and was a leader in politics in his state. His death is attributed to complications which arose after he had suffered a severe attack of influenza.

Relative to Senator Morton's death the Richmond Missourian recently said:

With the passing of Senator Morton Ray county loses one of its most prominent citizens, a man ever progressive for the improvement of the county, and the State loses a law maker whose integrity and ability won for him a nation wide name.

John F. Morton was born in New Orleans, La., on March 6, 1862, being a son of John F. and Helen M. (Huston) Morton. His father was a native of Kentucky and was an old Mississippi river steamboat captain and owner, prominent in the early days of the river traffic. While piloting his vessel on a trip up the Mississippi river, he died at St. Paul, Minn. in 1885. His mother was a native of Ohio. When he was two years of age his mother removed to her old home in Portsmouth, Ohio, and in 1868 came to Richmond to reside. Senator Morton and his mother were constant companions and her death, on October 31, 1918, was a great shock and one from which he never fully recovered. During her declining years, Senator Morton devoted himself to his mother and saw that her every wish was gratified.

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Dolly—I am a girl 13 years old, have brown hair, brown eyes and dark complexion and weigh 100 pounds. How should I wear my hair, and do you think I am good looking? I am in the seventh grade. Do you think I am getting along alright in school? How long should I wear my dress? Dolly, the girls don't seem to like me very well. How could I get them to like me? I treat them alright. Please help me as I would appreciate it very much. How is my writing and spelling? Will you please judge more than.

CUTIE JANE.

Wear your hair back from your forehead, low over your ears, caught with a big bow on the back of your head, and bring in one or two long curls. You probably are quite a pretty child and are getting along fine in school. The length of your dresses depends upon how tall you are. Consult your mother about your clothes. Dress be bright, cheerful and not too gay, and by being congenial always, people will soon begin to like you. Don't be affected or boastful. Forget all about yourself in being thankful of the comfort of others. Do not be self-conscious, read interesting books, learn to talk about them. All this will be hard to do at first, but later you will be mighty glad you tried it.

Anxious Sarah—If your hair still is still good and straight, I would advise you to get a pretty satin velvet, or crepe de chine dress.

This would enable you to buy a coat also. However, if you are intending to go on a wedding journey before it gets cold a brown suit would come in mighty handy. Accessories to match always make a more stunning toilet than otherwise. Get darker brown shoes, lace gloves and fur collar than you suit if you really enjoy that. It all depends upon the condition of your wardrobe.

Dear Dolly—Will you please tell "A Hopeless Nut" to send you her address, or phone number, because I am a girl 16 years old and my case is exactly like hers, and I would like to meet her.

JOSEPHINE.

Dear Dolly—Can you give me a good way for making white-wash? Also, who are your favorite movie stars?

I like Norma Talmadge best of all. Other favorites are her sister, Constance, Mary Pickford and Anita Stewart. Eugene O'Brien is my favorite actor.

A good white-wash that will not rub off is made as follows:

Mix half pint of clear water with four or five drops of water enough to thicken it; pour white hot into a bucket of lime and water which has been mixed ready to put on the wall. Stir well together.

Sciotoville—Dear Miss Wise—I am 15 years old, have black hair, grey eyes, a fair complexion and weigh 110 pounds. Am I good looking?

Yes, A good dose of "non-much-man."

Dear Dolly—Is there any difference in going to school in dog days than any other time?

BROWN EYES

The water is said to be poisonous to some people in dog days.

Dear Miss Wise—Will you please tell me how a girl 10 years of age should wear her hair? What color of dresses are going to be good this winter?

ANNIE'S

You should know better than anyone else how your hair looks the most becoming. Get a fashion sheet and try your hair in the many different ways in it. You find your particular style. The best way to say what material, dark colors are better for fall and winter.

Miss Dolly Wise—Please publish in tonight's paper that I wish to turn a man against whiskey. Please let me know if you because my husband is drinking more than ever since the war. I have been gone. Please tell me at once if I am doing something good that will do the work.

ANNIE'S

Dear Miss Wise—Will you please tell me how a girl 10 years of age should wear her hair? What color of dresses are going to be good this winter?

How long should I wear my dresses? Will chocolate colored shoes be worn this winter? How should I wear my hair? Am I too young to go with the boys? Please tell me what will take freckles off the face and arms.

DOLLY DIMPLES.

Not having seen you, I can scarcely tell whether you are good-looking or not, but from your description I should say you were an unusual type. Wear your shoes about 2 inches above your ankles. Chocolate shoes will be very good this winter, as they are being widely shown in the stores for school and street wear.

Would advise you to wear your hair down your back in some girlish style. Sit down in front of your dressing table some afternoon or evening and experiment with your hair until you find some attractive style suited to yourself. Oh, are you too young to be with boys if there are a crowd of young people present. See your dentist and ask him to recommend a good cream and then keep out of the sun and wind.

Dear Dolly—Can you tell me a good remedy for lice-lickers?

LOVER.

Yes, A good dose of "non-much-man."

Dear Miss Wise—Will you please tell me how a girl 10 years of age should wear her hair? What color of dresses are going to be good this winter?

There are no Gypsy fortune tellers in the city that I know of. Serge midly suits are splendid for school and office wear. Midnight blue is the best for serge midly suits, and may be trimmed in black or white narrow braid, and worn with a big red or black tie. Some girls look well in a white serge skirt and a blue serge midly, combination with a fancy apron. Serge is better for fall and spring wear, than for winter, when a coat is more comfortable.

Dear Miss Wise—Do doctors and nurses go to the Leper Islands to take care of the Lepers? Will you please give me a recipe for pickling green tomatoes?

YOURS TRULY.

Yes, That recipe has been in several times. Look over your old papers. The answer to your third question is yes.

Dear Miss Wise—Is Pearl White dead? If not, what is her address, and those of Constance Talmadge, Viola Dana and Crane Wilbur? Who is the most popular movie actress and actor?

HELEN.

Pearl White is very much alive, and is now vacationing at her summer home on Long Island, N. Y. She has forsaken Pathe, and will produce eight features a year for Fox Film Corporation, 120 West Forty-sixth street, New York City. Viola Dana is the sister of Shirley Mason, and may be reached at Metro Studios, Los Angeles, Cal. As to the other two addresses, write them in care of William H. Wright, Wright and Calender Building, Los Angeles, Cal., and the letters will be forwarded. There is a great difference of opinion among movie fans, as to whom is the most popular actress and actor. No one really knows.

Every Dollar You Spend With Local Grocers, Helps the Town and You

EVERY dollar you keep at home helps you. Every dollar you spend with peddlers, and mail order houses goes out of circulation as far as your town is concerned.

These dollars do not help build your schools or support your churches. Peddlers and mail order houses that rely on premiums to secure business must sacrifice quality.

You pay full price for every premium. Patronize only your local grocers, for they are the ones who are helping make this town a better place to live in.

TREATY IS HANDED TO AUSTRIA

PARIS, Sept. 2.—The revised text of the peace terms framed for Austria's acceptance by the peace conference was handed to the Austrian plenipotentiaries at St. Germain this afternoon.

The treaty was presented to the Austrian delegates by Paul Dulska, general secretary of the peace conference. He also handed them the reply to the Austrian counter proposals and a covering letter reiterating that Austria had precipitated the war by an ultimatum unacceptable to Serbia.

IN HANDS OF LEAGUE
PARIS, Saturday, August 30.—(By the Associated Press)—The Austrian peace treaty was virtually considered by the supreme council for submission to the Austrian plenipotentiaries leaving the future of Austria very largely in the hands of the League of Nations.

The league, that is, will be able to decide whether Austria shall be permitted to join Germany and as France is opposed to such a union, as are Switzerland and many other countries, there would appear to be little chance of Austria's securing permission to terminate her existence as a separate state, should she so desire in the future.

There seems to be a general feeling of dissatisfaction in peace conference circles with the treaty, which was adopted from the German treaty and does not fit such a small power very well. The council, however, had agreed today on virtually all sections of the treaty, because there is a general weariness with discussion. Under the terms of the treaty Vienna with its 2,000,000 inhabitants, seemed doomed to lapse into comparative commercial insignificance, as there is a population of only 4,000,000 within the country outside the city to support the capital, while with Jugoslavina, Czechoslovakia and Hungary existing as separate powers, Vienna can hardly hope to recover the business formerly drawn from their territories.

FIREBRICK POSTOFFICE IS ROBBED

A burglar paid a profitable visit to the Firebrick, Ky., post office and the Peckles Fasting Brick Company's store at that place Saturday night or early Sunday morning. About \$50 was secured from the money order drawer and some small change from the store department of the building, the post office and store being in the same building.

Fred Cunningham, postmaster and manager of the store, discovered the robbery Sunday morning. In walking near the store he noticed a door partly opened and on looking inside noticed the money order drawer on top of the post office desk. On going inside, he found that the drawer had been torn from its fastenings and filled of about \$50. He then noticed an iron bar was then discovered near the cash register in the store department. Marble on the register was broken and the drawer pulled open. Small change was taken from the register drawer.

Mr. Cunningham notified the officers of the Peckles Company here and Fred Manning, Marshal W. L. Davis and his bloodhound of New Boston, went to the scene. The dog picked up a trail at the scene. The dog followed it to Smith, Ky., then to Dry fork and down to the mouth of Wingo Creek.

Sheriff Kellum and his deputy from Yarmouth were also on the scene with Marshal Davis Sunday afternoon. The trail was lost on Wingo Creek.

Fall Gingham Week

Whee, It's National Gingham Week Again

Most women will recall the National Gingham Week of last Spring when all the stores advertised and featured gingham for dresses and how we told you that gingham would have the call good and strong. Well, at the beginning of the Autumn season we come to you again and say to you that there is no frock more dainty or appropriate for a bright Autumn day than a stylish gingham dress.

Ginghams have never held such a widespread popularity for stylish day-time dress. Fresh and sunny in colors, easily washed and always dainty they have long been popular for Spring and Summer. This year new designs in rich Autumnal tones are in great demand for fall and a National Gingham Week being observed all over the country attests the nation's ready acceptance of the new fashion.

In our displays are many new attractive patterns in deep, rich shades which make up into very modish dresses for autumn wear.

The First Frocks of Fall Arrive in Numbers

Labor Day is past and the time till snow flies and frost comes will sail by with hurried foot-steps, leaving folks all too scant time to prepare for the coming season. Daily arrivals of Autumn garments remind us that we must be about our business of showing and selling for the new season, and these beautiful new frocks are enough to enthrall any woman.

Soft woolsens, originally developed in colorings suggestive of Autumn, proclaim these Frocks as new and entirely different. The selling is most opportune for now of all times most women wish to select these Tricoline, Serge, Georgette, Tricotee and Charmeuse Frocks which are so important in the wardrobe, for the crispier days soon to come. Belts, buttons, embroideries and various other style features accent the charms of these early modes. Prices range \$22.50, \$45 and up.

YOUNG MAN HURT WHEN GANG BOMBARDS TRUCK WITH ROCKS

A young man giving the name of George Gabbert, of this city, was struck on the head and severely injured last night near Friendship, when an auto truck in which he was riding along with a number of other members of a pirate party was bombarded with rocks by a gang of hoodlums.

The pirate party was returning to the city, when several young men at Friendship took exception to their singing, and a young man named Odie bombarded the young men in the truck to a fight, and the challenge was accepted by a young man named Devoss, who from reports, gave Odie a beautiful flogging. This so angered Odie and his pals that they made a vicious attack on the truck with rocks, one striking Gabbert and knocking him unconscious while another member of the party was also hit on the head, but not seriously hurt. Several of the young women in the party fainted during the excitement, and together with Gabbert were brought to the city in Lynn's ambulance.

Sheriff Riekey was summoned to the scene to investigate the trouble last night and arrests will probably follow.

Simple Perfume Making.

At first thought it might seem an impossible feat to collect the perfume of flowers after it has escaped into the air, yet it seems simple enough by a method that the Scientific American describes.

Fresh, high-scented blossoms are placed in an uncovered bowl filled with water and set near the "collector," which consists of a common glass funnel with the small end closed.

The funnel is filled with a mixture of crushed ice and salt and suspended in an upright position.

Moisture from the air of the room forms on it and unites with the emanations from the flowers. As the moisture collects it runs off the tip of the funnel into a receptacle. If this liquid is mixed with an equal amount of pure alcohol, the perfume of the flowers is preserved indefinitely.

THREE PEOPLE ARE HURT WHEN AUTO HITS POLE THAT FELL ACROSS STREET

Ray Broadwater, Fred Hogan and Harry Butler, well known steelworkers were injured Saturday night about 10:30 o'clock when the top of Broadwater's Studebaker touring car hit an electric light pole that fell across the street at Grant and Lincoln streets.

The pole fell on the trolley wire and was held about eight feet from the ground. The street light was smashed

when the pole fell and when the machine came along the car was just under the pole which was just low enough to catch the top of the machine and tear it off.

Broadwater and Hogan were in the front seat. Butler and his wife and Mrs. Hogan and baby daughter were in the rear seat. Broadwater was cut about the head by glass. Hogan suffered a

sprained wrist and Butler had three front teeth knocked out and his lips badly cut. The two women and the baby escaped injury. Dr. Albert Bernice attended the injured.

The pole broke off at the ground. A pole crew had the pole removed from the street in about a half hour after it fell. The people had spent the evening at the Broadwater home and were being taken to their respective homes by Mr. Broadwater when the accident occurred.

OFFICER RICKEY KNOCKED DOWN IN FIGHT; TWO ARRESTS MADE

When Officer Pearl Rickey placed Frenchy Leverette under arrest on Chillicothe street at nine o'clock Sunday night, "Red" Clifford took a hand and struck the officer.

A desperate encounter ensued and the pair had downed Rickey and was getting the better of the argument when Officer Payne, attracted to the scene by the commotion, went to the aid of his colleague. Leverette and Clifford were finally subdued, the officers using their clubs freely, and landed their prisoners in the city jail.

Leverette was injured and in an ugly mood. He is said to have assaulted a man named Ed McKinley at Wm. Frederick's place and ejected from the building. His conduct in the street caused Officer Rickey to arrest him and then the fight ensued.

Charges of intoxication and disorderly conduct and with resisting an officer were placed against the two men who will be given a hearing this evening.

Clifford was released on bond. The fight drew an immense crowd and serious trouble was narrowly averted.

Big Fire At Catlettsburg

CATLETTSBURG, Ky., Sept. 2.—This city valued at \$25,000 was destroyed by fire this morning and caused approximately \$150,000 damage.

The United Liquor Company's store Steiner's saloon, the Hall Mail saloon and the River View hotel burned. The hotel had been vacant.

Origin of the fire is unknown. For a short time an entire square seemed doomed.

Okey Stevens, a member of the Catlettsburg fire department, was caught in a shower of glass and other debris and injured seriously. Homer Robinson and A. G. Dlat, two restaurant men, were also injured. The exact amount of liquor which had been stored in hopes the war-time prohibition law would be lifted could not be estimated. Some 600 cases of whiskey were lost in the fire by the Union Liquor company.

A large quantity of 2 and 3-4 percent beer owned by the Union Liquor company and Steiner Brothers saloon was also destroyed. Just what percent of the loss is covered by insurance has not been determined. With the aid of the Ashland fire department the local company was able to keep the fire from spreading to the central part of the city.

A corner in the suite General Pershing will occupy while in New York.

When General Pershing arrives in New York from overseas early in September he is expected to live at the Vanderbilt hotel. He will occupy a suite on the top floor. The photo gives some idea of its elaborateness.

A successful safe blowing job was staged in the N. & W. station at Waverly early Monday morning, the robber or robbers securing between \$75 and \$80 from the badly damaged safe.

The safe was blown between 12:30 a. m. and 4 a. m. Monday morning. It is thought the job was done about 12:30, the clock in the station stopped at this time. The robbery was discovered by Everett Bauer, night man, who went on duty at four a. m.

Robert Scott, night agent, left the station at 12:15.

The robber or robbers forced the station door to gain entrance to the room where the safe is located. When Bauer went to work he found the door locked, the robber or robbers having shut the door when they went out.

The combination was knocked off the safe door with a hammer. Nitro glycerine is thought to have been used as all the cement packing in the safe was torn loose.

Anly Leslie, N. & W. detective went to Waverly Monday morning to look on the case but did not find any clue. Several years ago the safe was blown.

Attending to Chickens and Garden

"My neighbors are surprised to see me looking so well, for they thought I would not live to see summer. I had such pain around my heart as to cause me to faint. I knew it came from bloating and pressure of gas in my stomach. A friend in St. Louis told me to use Mayr's Wonderful Remedy and I now feel better than in all my life. I am doing my own work, attending to my chickens and my garden and have cleaned house." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Flood and Blake, Fishers and Stretch and Druggists everywhere.

Family In Peril When Auto Goes Over Bank

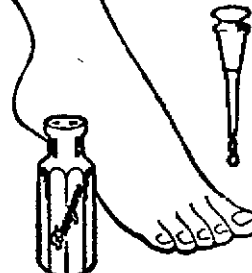

An automobile driven by F. C. Duffel, well known New Boston grocer, and his family, Mrs. Duffel and son, Roy, and daughter, Ruth, skidded off the road near South Webster Sunday afternoon, plunged over a 10 foot embankment and landed in a shallow creek.

Mrs. Duffel and daughter Ruth were thrown out, but escaped with bruises. The machine was badly damaged.

Mr. Duffel was at the wheel and he says that his machine skidded on the railroad tracks leading to a small wooden bridge, but before the car

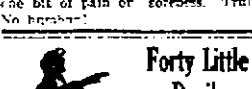

Lift off Corns!

Doesn't hurt a bit and Freezono costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin falls from bottom of foot.

A tiny bottle of "Freezono" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops burning, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly No wonder!

Beats Wife; Sent To Jail

Carl Walker, Union street shoe worker, celebrated Labor Day by getting liquor and then went on a rampage at his home last night and beat his wife. The wife complained to the police who got Walker and brought him to the city jail.

This morning in police court Walker pleaded guilty and Mayor Kaps placed him with a fine of \$25 and sent him to the county jail for 30 days to reflect over his misconduct.

Splendid Way To Reduce Your Weight

There is perhaps no one thing that so plainly shows the passing of our youth as the horrible tendency to put on too much weight after we have reached the age of 25 or 30 years. However young your face may appear, the sagging, flabby figure and early loss of hair are sure signs that our stomachs convert the food we eat into fat because there is not enough oxygen in the blood to produce a proper combustion to destroy the excess fatty tissue. Fat people will be pleased to learn of a simple home method that is wonderfully efficient in reducing weight, quickly and painlessly without a starving diet, violent exercise or strenuous exertion. Go to any drug store and get a box of Phytolax; take three single after each meal and at bed time. This treatment will often give quick relief from overburdening fat. Phytolax taken at meal time aids the stomach in giving you the benefit of the food you eat at the same time dissolves the fatty tissues from any part of the body where there is excessive fat. By this method many have reduced their weight a pound a day and there are no failures left. Fisher and Stretch Pharmacy, opposite post office can supply you with the genuine Phytolax at a small cost.

ATTENTION, MOTHERS!

Now that school days have arrived it behooves you to see that your boy is well shod.

Many months ago I contracted for boys' shoes but didn't receive them until a short time ago. When I contracted for these shoes I decided to sell them for two-thirty-five for the big boys' (2 1-2 to 5 1-2) and two dollars for the smaller sizes; and that's the price as long as they last—which can't be long at this price. This particular lot is gun metal buttons, made on a good, full toe last that gives the toes plenty of room.

MARGUERITE CLARK "Girls"

Marguerite Clark in a Delightful Little Comedy that You Will All Enjoy at the Columbia Tonight and Tomorrow

If you want to see the unconditional surrender of a certain man-hater's club and the sensational capture of its leader and members by Cupid and his agents, see Marguerite Clark, dainty little Paramount star and the supporting cast in her new picture, "Girls," which will be shown at the Columbia tonight and tomorrow.

Pamela Gordon, the role played by the star, is a confirmed man-hater. In her views on the subject are confirmed that she seeks to convert other girls to her principles, and has formed a man-hater's club consisting of herself and two other girls, her room-mates.

But one by one her converts feel the pleasant sting of Cupid's darts and fall out of the ranks, leaving the little heroine of the story alone to wage her warfare on love and man. Her battle is a hard one and the way she is finally lured and forced to capitulate to Commander-in-Chief Cupid and his opposing forces, consisting of a young and ardent sweetheart named Edgar. It is said to be one of the most delightful comedy-romances ever seen on the screen.

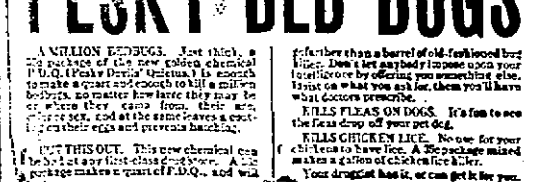

Mary MacLaren

In her Wonderful Picture of the Woman who mastered Fate
"The Unpainted Woman"

She came up from nothing—was—and then lost every earthly possession except her conquering heart and the love of a man who loved her because she was what she was. Together they worked out their fateful destiny—and the drama of it never has been surpassed. You must not miss this picture.

Mary MacLaren, The American Beauty of the Screen in a Virile Human-Interest Drama "The Unpainted Woman" at the Lyric Tonight and Tomorrow. First Showing in Portsmouth.

A story admirably suited to Mary MacLaren, whose heroine breathes every personality of "The American Beauty of the Screen," such is the "Unpainted Woman," which comes to the Lyric Theatre tonight and tomorrow. The story tells of a country village; its so-called aristocracy, its snobbishness and bitter class distinction, a young wife who uncomplacingly submits to taunts and virtual ostracism because, though but a hired girl, she dared to marry the son of one of the best families, and later, as a widow, how she through her courage and sweetness of character forces down the barriers and comes into her own. The picture is full of thrilling human interest and is beyond a doubt the best in which Miss MacLaren has yet appeared. "A Lion Special" and other top-ranking two reel animal comedy will be the added attraction tonight while "The Perils of Thunder Mountain" will be shown tomorrow.

WILLIAM FOX PRESENTS
THEDA BARA
CLEOPATRA

"Cleopatra," Conceded to be one of the Most Spectacular and Elaborate Plays Ever Produced, Will be the Special Attraction at the Strand Tomorrow Night

When William Fox presents his epoch-making film version of "Cleopatra" with Theda Bara as the Siren of the Nile at the Strand tomorrow, local amusement seekers will see the most sensational and magnificent photographic spectacle ever produced. Described as a film spectacle of surpassing beauty, "Cleopatra" bares on the screen the passions of the vampire of the Nile. The ancient Siren is said to be admirably impersonated by the foremost modern exponent of Siren roles. The filmed "Cleopatra" depicts that lady's historical encounters with Caesar and Antony and the meeting of her army and that of Antony with the forces of Octavius. Ancient Rome and Alexandria were created in California, where "Cleopatra" was filmed. The Roman forum was reproduced, and there is shown the death of Caesar. Cleopatra's famous barge once again moves majestically over the water and the famous feasts of Egypt's queen, those feasts which by their extravagance dazzled the eyes of Caesar and Antony, are shown in all their sumptuousness. You owe it to yourself to see this wonderful production, the story of which is known in every household. The prices are 20c and 10c.

"THE REBELLIOUS BRIDE"
WILLIAM FOX PRODUCTION

Peggy Hyland Marries First Man She Meets in "The Rebellious Bride" at the Strand Tonight

Peggy Hyland in "The Rebellious Bride," will be the attraction at the Strand tonight. This new Fox production tells the story of a pretty, happy, bright girl of the Ozark mountain region, who contracts a peculiar marriage. Her old grandfather, with whom she lives, fearing that the child is getting beyond his control, forces her to marry the first man they meet on the country road. This happens to be a wealthy St. Louis man, who had dropped into the mountains during an airplane flight.

Of course, in marriage, a girl always takes more or less of a chance. Did this girl assume any greater risk than if she had known him for years? "The Rebellious Bride" answers this question in a delightful way, and Peggy Hyland makes the girl a thoroughly wholesome and pleasing character. Ralph Fields in a Strand Comedy will be shown also.

I Take No Chances With My Baby

WHEN I found I couldn't nurse my baby any longer, I made up my mind to find a food for him that would be safe—that would be sure to bring him health and happiness.

I knew raw cow's milk was hard for him to digest because of the tough curds—and I was afraid of the dangers of germs, particularly in hot weather.

And then my doctor told me the safest form of milk—the easiest to digest—the nearest thing to mother's milk—was Nestlé's Milk Food. My baby has thrived and grown in health and happiness ever since.

You see, Nestlé's is really milk—but with the tough curds broken up by changing it to a fluffy powder, and with just the right amount of sugar and cereal added.

I found that the Nestlé Company likes to save babies and keep them well. They sent me free enough Nestlé's Food for twelve feedings, and a very interesting and valuable Mother's Book about how to take care of babies. All you have to do is fill out the coupon below.

Nestlé's is pure milk in perfect form that is already modified and does not require the further addition of milk. Always pure and safe, always uniform and free from the dangers of home modification. Nestlé's has used the best of three generations and has kept the formula of its baby food in the world.

FREE! Enough Nestlé's for 12 feedings. Send the coupon.

Aboriginal Superstition.
The Australian blacks were the bushy tails of their "dingy" dogs into their hands to make them longer. Indians of the Puget Sound region make blankets of dogs' hair. Bible Says Little of Healing Art.
Moses was the nurse of the servant of the high priest whose right ear Peter cut off at the time of the Saviour's apprehension in the garden. (Matthew 26:51; Mark 14:47; Luke 22:49-51; John 18:10). It is noticed that Peter, the physician, is the only one of the writers who mention the art of healing.

NOT MUCH OF A JOB

DISCUSSION is still going on as to whether or not America shall assume a mandatory for Armenia. One advocate, who urges this country to the mandatory remarks:

"What exactly the obligations are which a mandatory for Armenia would have to assume is not yet known with any exactness, but, according to a recent well-informed statement, they would not be unduly onerous. The mandatory, this statement declares, would have to aid the Armenians, in an advisory capacity, to establish a government on a permanent basis; to send to Armenia two, or possibly four, regiments to remain for a brief period in order to exert a steady influence on the native populations; to co-operate with the Armenian government in the repatriation of 1,500,000 Armenians; to make provisions for caring for 300,000 or more orphans; to help Armenia, through technical commissions, in the construction of transportation systems, docks and harbors; and to inaugurate modern improvements, including suitable means of sanitation, in its towns and cities.

That is surely letting enthusiasm run away with itself. Not unduly onerous to transport an army thousands of miles, provide it for months, gather up a million and half people from the four corners of the earth, care for 300,000 "or more" orphans—and knowing something of Armenians, we say there would be several more, yes, several hundred thousand more—help Armenia, through technical commissions—and we also know something about the cost of commissions—construct transportation systems, roads and railways where there are none at all, build docks, create harbors and provide for sanitation in its towns and cities, where they know nothing more about such things than a pig, inaugurate modern improvements, in a word, transform a land!

Why it would cost more than the maintenance of our government. We are a rich people, we are a benevolent people, but we have needs here at home of our own, and money seems to be the greatest of all.

A DIFFERENCE BETWEEN THE TWO

JUDGE Wainwright, of the supreme court, makes a fervid appeal for respect and observance of the law. To us it seems as if he were making something of a failure here to draw a distinction here between law and right and justice.

Generally speaking the law should be respected and observed, but that is true only of good and wise laws. Sometimes laws are neither good, or wise and have no other quality than foolishness and viciousness.

If there is scantier respect for the law than there should be, this springs from two causes, the lack of desert and the failure to enforce. The law fails of commanding because it creates the rule, designates what penalties shall follow on violation and yet its other creatures, public officials, fail to impose the penalty. Nor should they always be held blame-worthy for this as penalizing for infractions would be harsh and unreasonable.

Right and justice should be invariably respected and observed because they have the inherent quality of desert. Failure to observe them does wrong somewhere to some one. Where the law embodies them it of itself then becomes right and justice and should be held inviolate as such.

If we had only statutes that carried such embodiment and hundreds less that had no other call to being except the vain and foolish desire of legislators to have their name coupled with some measure in the assembly, there would not be occasion for Judge Wainwright to make his plea.

Wonder when Columbus is going to quit being a village? All its papers enrapture over "the pageant" produced every afternoon of the fair. As a matter of fact the alleged pageant was a sorry spectacle in which appeared a lot of ill-trained and untidily costumed children, who gave a performance that the kids at the headwaters of Twin Creek could beat by several sections.

The Columbus State Journal is sorely puzzled to know what some of its friends are going to do for hating material, when Wilson retires to private life, but it is hopeful some other good Democrat and man will answer the purpose quite as well.

In his serial on management and mismanagement of city affairs it strikes us the young author has too many ifs. "If" the same thing occurs again, he tells us poor, suffering tax-payers, innumerable times, something dreadful is going to happen.

Mexico doesn't seem to know Pershing is about to return from France. Leastwise she has chosen a most unpropitious time in view of that event to again become unpretty. "Black Jack" wouldn't need much to finish that job he started out upon a couple of years ago.

Most of the American troops have been returned from Europe but the trained corps of lying correspondents seem to have been left behind. May be, though, they were born and trained over there.

That is distressful news we hear from New York. The milliners are going to have four seasons a year instead of two.

Ironton papers say the feature of the Apple Show is going to be the auto display. Then why call it an apple show?

The News says one of the points for a greater Ironton is street cars running to the cemetery. Rather neat way of saying the town stands in need of some first class funerals.

A chap, who claims to be a nephew of Kaiser Bill and gives his native name as Johann Wilhelm von Loewenfeld Brandenburg Mohenzollern has had a Michigan judge give him permission to write it. Vaughn Lionell. Sort of a contradiction in that Lionell since he didn't have the courage to carry around the original label.

Yes, sir, it does make all the difference whether a man says what you want him to say or does not. Even at that it is amusing to hear those papers that are most gross in their reference to the President's stand on the league of nations acclaiming his utterances on the railroad wage contention as "clear cut, conservative and conciliatory" to say nothing of being conclusive.

THE WISHING PLANE

BY WILLIS WINTER

When Sir Sprigg began the story of the machine-gunner Jack and Jane sat down on the floor as near to him as they could get and listened to every word.

"Our regiment was at Sordio, then," said the British officer. "That's somewhere near the center of the British part of South Africa."

"Major Dundon had gone west to the coast on official business and had left me in command of the regiment. I guess the natives knew this, and thought it would be a good time to attack us. So, one night, when a great black cloud hid the moon, they just seemed to spring up out of nowhere and there were two or three thousand of them. They killed most of our guards before the guards had time to fire a warning shot. The yelling told us what was up."

"We had built a high fence—army folks call it a stockade—out of walls

tree trunks. This fence ran around our supply houses and the well from which we got our water. So, when we heard the natives our men ran inside the stockade and began firing their rifles and machine guns through holes in the fence. We had plenty of bullets for both our rifles and machine guns at first and made it so hot for the natives that they could not get close enough to the fence to rush over it and kill us. But towards morning I found that our supply of bullets was giving out."

"We can keep them away the rest of the night," said one of the other officers, "but by tomorrow night they'll have twice as many men as they have now. They'll send swift runners back into the hills to bring other tribes. And we won't have enough bullets to stop them."

"We were talking over several different plans of saving ourselves when Sergeant Yost, a man who had been with me through three campaigns in Africa, asked if he might come into the officers' tent. He said word that he had a scheme in mind to help us out."

"When we called him in he said:

"If you'll let me have a machine-gun and twenty of bullets for it I'll save your tent. They aren't going to get another attack tonight and by tomorrow night I'll be ready."

"We all tried to get him to explain his plan, but he wouldn't tell a word about it. He was afraid, I guess, that we would think it so foolish that we wouldn't give him a chance to try it. But we finally decided to let him attempt whatever he had in mind. He was given the best machine-gun the regiment had, and half a dozen strings of bullets for it. Then we saw him slip into his tent, not far away, with the outfit. About half an hour later we saw somebody come out of Yost's tent. The somebody looked just like a native black man, and he carried a great bundle on his shoulder."

NEW YORK, Sept. 2.—It was 11 o'clock at night. A sleepy newsboy sat on his pile of early edition morning papers in Times Square. A policeman looked over "Today's Entries" under a drug store are light. A lone truck droned its weary way along Broadway. It was the new New York and it had gone to bed.

Gay New York is an anachronism, Baghdad on the subway, about which O. Henry left deathless literature, is now Baghdad a la Kevork. The lobster cathedrals and dance mosques were as empty as an old world cathedral at midnight and as ghosts.

The only flutter of night life is in the coffee houses. On the ruins of the all night bar the Danish and French Vienna bakeries near their pasty—er—pastry—heads. Customers bring bottles of tobacco for with them. And they try to be happy and rid of the old days when the populace did not

WHO'S WHO

IN THE DAY'S NEWS

PAUL S. REINSCH—Paul S. Reinsch, American minister at Peking, China, has tendered his resignation which is now in the hands of President Wilson. It has been reported that Dr. Reinsch has not been wholly in accord with the administration's attitude toward China at the peace conference but this did not appear in his letter of resignation according to reports.

Minister Reinsch was, previous to his appointment as minister to China in 1913 for twelve years professor of political science at the University of Wisconsin and for two years before that assistant professor at the same University.

He studied at the University of Wisconsin and at Paris, Berlin and Rome. He is the author of several works of political science, some of which have been translated into Chinese and Japanese.

It was largely through the assurances of Minister Reinsch that China's interests would be safeguarded by the United States that China was persuaded early in 1917 to enter the world war on the side of the allies. It is of so understood that the diplomat was strongly against the "Shantung arrangement" incorporated in the text of the peace treaty.

Have to be told by a headwaiter to "Whisper to me only with thine eyes."

One-on-eighty avenue the night-hawks are secreted in a backroom and now and then the barkeep creeps under the bar, draws a beer and creeps back on all fours and whispers in the inky darkness "Put on that cigarette, you fathead!"

The evolution and decline of night life in New York—except in the private clubs and homes—is an amazing spectacle to behold. It is difficult to believe that only a few years ago the cream of the sporting and political blood of the nation gathered in Harry John's to while the night away. Or in John Morley's house or at The Allen's or Kit Baird's "cockpit for gentlemen."

And are all the old places where the life of the night ran high. Places like Jackson's, the Haymarket, Akron's Tivoli, and Morley's, where the Muses washed their feet in red wine till the day squad of sculptors and canvas defectors arrived for breakfast. Flatbush, Mo., or "round day" is a seething cauldron of activity compared to Broadway at midnight.

In a little sidewalk eating place on Sixth Avenue, where the stout, "pif-fawners" of cheap vaudeville congregated, a trapeze artist and a man who throws knives at a woman standing up against a board were discussing another knife-thrower. It was evident that this knife-thrower was jealous of his rival. The trapeze artist spoke of his rival's ability and finally the knife-thrower made this concession: "Yes, he does throw a good knife!"

The bobbed hair, fair, is spreading. Mrs. Castle, on account of an illness, started it. "Then Ansonova had her hair bobbed, and to add fires to the fuel, Mrs. Enrico Caruso had her locks clipped. That the girls in New York have bobbed hair, it seems. A woman's barber shop has been opened where a head of hair is bobbed for \$5 a bob. In the men's shops there is an increasing number of "grown up ladies."

The New Stenographer

I have a new stenographer—she came to work today. Two hundred words a minute seemed to her just play. I gave her some dictation—a letter to a man, and this is what she wrote:

"Dear Sir: I have your favor and in reply would state that I accept the offer in your recent date. I wish to say, however, that under no condition can I afford to honor your free lance proposition. I shall begin tomorrow to turn the matter out. The copy will be ready March 1st, 1919, about. Material of this nature should not be rushed unduly. Thinking you for your favor, I am, yours very truly."

"She took it down in shorthand with greatest ease and grace. Thought I, at last I have a girl worth keeping round the place. She didn't call me back, nor jump up in a flurry. I said: 'Now write it out, but don't be in a hurry.'"

"The stenographer she tackled. She struck the final key, and after thirty minutes 'twas this she handed me: 'Dear Sir: I have the favor, and in reply would state that I accept the offer in your recent date. I wish to say, however, that under no condition can I afford to take of your free lance proposition. I shall be in tomorrow to turn the matter out. The copy will be ready March 1st, 1919, about. Material of this nature should not be rushed unduly. Thinking you for your favor, I am, yours very truly.'"

Wilson Refuses Senate Committee The Latest Drafts Of Peace Treaties

WASHINGTON, Sept. 2.—The request of the foreign relations committee for the latest drafts of the proposed treaties with Germany's allies has been refused by President Wilson on the ground that compliance would set a precedent endangering senatorial participation in the presidential power of treaty negotiations.

In an exchange of letters made public today, Mr. Wilson wrote that it was "out of the question" to accede to the committee's suggestion, and Chairman Lodge replied that although the treaties were closely connected with the treaty with Germany, the president undoubtedly had authority to keep information about them from the senate if he chose.

Brings Another Impasse
The correspondence apparently brought another impasse between the president and the committee on the much debated subject of what information the senators should have in their consideration of the treaty with Germany. Mr. Lodge and others have declared the committee could not act satisfactorily until all of the Versailles treaties were before it, but at the White House conference Mr. Wilson told the committee that the form to be taken by the four treaties under negotiation depended largely on the senate's action regarding the instrument now before it.

A copy of the agreement of June 16 relative to future treaties also was denied the committee, the president writing that it would become pertinent after the treaty was ratified and that its publication might be embarrassing to other governments. To this point Mr. Lodge replied that it already had been published in a British white book and from that source had been circulated in this country through the Congressional Record.

The correspondence was made public by Mr. Lodge, who indicated that no further effort would be made by the committee in the matter. The committee did not meet today, but tomorrow it will resume its hearings and probably will have another executive session to work on proposed amendments and reservations to the treaty with Germany.

The only amendment pending before the committee now is a proposal by Senator Pack, Republican, New Mexico, to strike out the provision for an international labor organization. When the question of amendments has been disposed of, drafting of the ratification resolution will be taken up. It is expected that the committee's draft will include several reservations to the League of Nations covenant.

Sharp Note Is Sent To Germany

PARIS, Sept. 2.—(Havas)—The supreme council of the peace conference decided today to send a note in forceful terms to the German government pointing out the contradiction with the Versailles treaty of the provision in the new German constitution providing for the representation of Austria in the German Reichsrath.

The council demands the suppression of the article within a fortnight declaring that otherwise the allies will be compelled to undertake a further occupation of the left bank of the Rhine.

JUDGE LINDSEY FACES JAIL TERM FOR KEEPING BOY'S CONFIDENCE

The boy, Neal Wright, his mother and her baby, and Judge Lindsey.

Because he refused to tell in court the story that Neal Wright had given him in confidence, Judge Lindsey has before him the early prospect of 30 days in jail. The sentence was given for con-

tempt of court by the judge who presided at the trial of Neal's mother for the murder of her husband. The boy took the stand and said that it was he and not his mother who fired the shot. He was twelve years old at the time.

Now he is a soldier in France. His story gained his mother's freedom, and the indications are that the only person who will suffer for the murder is the famous "kiddie" judge.

FIUME MAY BECOME A BUFFER STATE

PARIS, Sept. 2.—(Havas)—The Fiume problem will be solved by an agreement that the city shall become a buffer state with an extended hinterland, according to an interview with a prominent Italian, which is printed in the Journal today. The article declares Fiume will be under a regime that will assure the Italian character of the city, being governed by a council composed of two Italians, two Jugoslavs and one citizen of Fiume. The city of Zara, it is said, will be made free. Italy, according to the interview, will renounce her sovereignty over the territory of Trieste, in the central part of the Adriatic coast, but will receive concessions from the French in Heraklia, Asia Minor, where there is a coal field, and in Anatolia.

MORROW COUNTY WINS VICTORY SHAFT CONTEST ON SALE OF WAR STAMPS

COLUMBUS, O., Sept. 2.—Morrow county is the winner of the victory shaft contest in the selling of war stamps in Ohio, according to modified reports received today by state war savings headquarters here. For selling the largest amount of stamps per capita, Morrow county will receive a marble memorial shaft to commemorate its dead in the world war.

Since June 1, Morrow county sold approximately \$250,000 worth of stamps or a per capita sale of \$14.45. Although Licking county sold more than twice as many stamps, approximately \$500,000 worth in the same period, its per capita is only \$10.78. Warren county came third with a per capita sale of \$7.76.

Until the Ohio war savings committee checks the reports thru the post office department and Federal Reserve bank there will be no official award.

The three leading counties in the victory shaft contest purchased more than \$1,000,000 worth of stamps in 50 days and the 88 counties of Ohio during the same period bought \$5,000,000 in stamps giving Ohio a lead over all states in the union in aggregate sales, including New York, or nearly 100 percent to September 1.

MEXICO, CITY, Sept. 2.—A defense of Mexico against foreign representations, particularly from the United States regarding the lives of foreigners and their property, was explained in a message of President Carranza read at the opening session of congress today.

Particular reference was made in the message to alleged injustices practiced against Mexicans in the United States.

Offenses Alleged
A long list of the alleged offenses was given under the section of the address devoted to foreign relations.

The message also defended Mexico's neutrality during the war and protest of against charges that the Mexican government was incapable and unwilling to protect foreign lives and property.

Equality Denied
In the message President Carranza asserted that Mexico did not agree to the League of Nations because, he said, the League did not establish equality for all nations and races. He reiterated that Mexico had not and would not recognize the Monroe Doctrine.

Regarding oil legislation, the message said the government was willing to concede, but would not sacrifice its national sovereignty.

Norwoods And All Stars Break Even; Big Crowds At Games

Local Team Won Sunday; Visitors Copped Monday

Local team broke even in their game series with the Norwoods, winning the Sunday game by the light of 4 to 2 and losing the labor day game 5 to 3.

The Norwoods must be given credit for the Sunday victory. He was all that a pitcher should be. Whenever the home team threatened to get into the game, he was there to stop them. He allowed one more hit than his rival, Jacky Fromholz, but it was also true that when his team was in the lead, he was the one who kept them there.

The star pitcher of the Norwoods was a highly skilled and intelligent player. He was given faithful support on the green by his colleagues. Joe Barber, who was at second base, while Fromholz performed in fine style, behind the bat and Stator's work at first was very good.

In this game it was nip and tuck until the ninth inning, the two teams being tied 2 to 2. It was then that the Norwoods scored the run that won the game. With one down, Barber bunted a single over second. The doublet's spike into third when Keyser slammed a two base swing to right. Stator's throw to Vioz for the second out hit when Fromholz's hot shot down the first base line. Barber galloped home to score the winning run.

The visitors' tally: first marker in the fourth when Vioz batted over Keyser's foot in right and scored on Vioz's hot rap through the short field. Vioz went to third on a wild pitch but perished there as the succeeding batter went out on easy chances to the infield. Their other run was registered in the seventh when Vioz led off with a hit to right but he was zipped at second on Kinderman's smack to Baumman. Kinderman went to second while Barber and Stator were taking care of Dell and then he rode home on Vioz's swipe to left for a base.

The locals hung up a pair of tallies in the fifth when they bunched three hits and a walk. With one out, Keyser slammed a single to right and Stator flied out but Vioz, by a fast sprint beat out a hit to short and Baumman worked Fromholz for a walk, leading up the stations. Shultz next platted to left center which either Fischer or Witter could decide who should make the catch and the ball fell safe, allowing Keyser and Vioz to roll over the pan.

The hurdle in the Labor Day struggle, which the locals were unable to surmount, was Vioz's crack finger to the visitors. He pitched a most of a game and was master of the situation all the way. Reds And Cubs Divide Honors

Eller Pitches Loser And Sallee The Winner

CHICAGO, Sept. 2.—Chicago and Cincinnati divided the holiday bill Monday, the home leaders dropping the morning game 5 to 4 and winning the afternoon game 4 to 2. Merkle's homer, broke the tie of the first contest giving Chicago the game after each club had scored three runs by launching hits.

Vaughn's wildness in the first inning of the second game coupled with Rath's double, Daubert's sacrifice, Neale's single and a double steal by Neale and Kopf gave the visitors a lead which Chicago was unable to overcome, although they hit Sallee hard. Poor base running cost the locals several runs. Score:

Is Pitching Fine Ball

Words of praise are being sung for Dick Muldolph for the good work he has been doing here of late for the Boston Braves after the discouragement of a bad start.

Reds Seven To The Good

There is nothing to worry over. The Reds are still seven full games ahead of the Giants and the reason ends this month. The Giants flush away from home and the Moran men on their own ash heap.

Groh's Injury Not Serious

Groh's injury is not of a serious nature and he will soon be back at the hot corner. A finger was badly bruised when it was hit by a pitched ball Sunday. Schreiner has gone to the third corner and has been putting up a pretty game there.

Rarden Is Defeated

McDermott baseball fans were disappointed Labor Day when the Athletics of Portsmouth failed to show up for their scheduled game. Sunday afternoon McDermott beat the Barber Champs 9 to 3. The losers scored their three runs in the second inning. The game was staged on the McDermott diamond. Thompson, Moon and Clark worked for Barber while Vastine and Hazelbaker were in the pants for the winners. McDermott won two out of three games from Rarden.

Scott's Great Record

BOSTON, Sept. 2.—Statistics compiled here show that Everett Scott, shortstop of the Boston American League club, has achieved an American league record by playing in 501 consecutive games, beginning June 20, 1910. He has been at bat 1,700 times, made 419 hits for a total of 511 bases and attained a batting average of .289 and a fielding average of .986.

Keeping Eddie Busy

Duncan In Left Field

Manager Morn of the Reds evidently intends to keep Duncan in left field. He has shown a lot of speed on the bases and is hitting much better than Magee. He rapped out two singles in the first game yesterday and played stellar ball in the field.

Vaughns' Prediction

"The big series," says Jim Vaughn of the Cubs, "is quite likely to be won and lost by hits over third base. Right there is where the Reds, if they are in the series are almost sure to bring home the bacon. They'll hit 'em over third too fast and hot for Weaver to handle, but I don't think any of the Sox can hit them so hard that Heinie Groh can't pick them up and shoot them to first base."

Kid Wolfe Is Stopped

Before several hundred fight fans in Tronton Labor Day, Jack O'Doyle of Tronton stopped Kid Wolfe of Tronton in five rounds.

Fast Pedros Beat Stars

Fred Eberfeld's Rosemont Stars played three games Sunday and Monday. On Sunday they defeated the Lincoln Stars on the Rosemont diamond in a ten inning game by the score of 2 to 1. The contest was a royal battle with the score 0 to 0 until the tenth frame, when the Stars made one tally. The Stars came right back in their half of the tenth and scored 2 runs. Adams and Weber worked for Rosemont, while Jacobs and Reber were in the pants for the losers.

Monday the Rosemont bats journeyed to Tronton, where they played morning and afternoon with the Pedro ballplayers. The locals lost both games. Pedro took the forenoon game by the score of 5 to 1. Jeffords and Weber worked for the locals, and Wolfe and Howe for the winners. In the afternoon Pedro won 6 to 4. Eberfeld started the afternoon game, but was knocked out in the first inning when Pedro made four runs. Jeffords pitched the game.

WATERBURY, CONN.—Pete Her men, champion lightweight, defeated by Joe Lynch, of New York, in 19 round non-decision bout.

JERSEY CITY—Johnny Dundee, of New York, out-fought by Willie Jackson, of New York, in 8 round bout.

NOT MUCH OF A JOB

DISCUSSION is still going on as to whether or not America shall assume a mandatory for Armenia. One advocate, who urges this country to the mandatory remarks:

"What exactly the obligations are which a mandatory for Armenia would have to assume is not yet known with any exactness, but, according to a recent well-informed statement, they would not be unduly onerous. The mandatory, this statement declares, would have to aid the Armenians, in an advisory capacity; to establish a government on a permanent basis; to send to Armenia two, or possibly four, regiments to remain for a brief period in order to exert a steady influence on the native populations; to co-operate with the Armenian government in the repatriation of 1,500,000 Armenians; to make provisions for caring for 300,000 or more orphans; to help Armenia, through technical commissions, in the construction of transportation systems, docks and harbors; and to inaugurate modern improvements, including suitable means of sanitation, in its towns and cities.

That is surely letting enthusiasm run away with itself. Not unduly onerous to transport an army thousands of miles, provide it for months, gather up a million and half people from the four corners of the earth, care for 300,000 'or more' orphans—and knowing something of Armenians, we say say there would be several more, yes, several hundred thousand more—help Armenia, through technical commissions—and we also know something about the cost of commissions—construct transportation systems, roads and railways where there are none at all, build docks, create harbors and provide for sanitation in its towns and cities, where they know nothing more about such things than a pig, in-aurate modern improvements, in a word transform a land!

Why it would cost more than the maintenance of our government. We are a rich people, we are a benevolent people, but we have needs here at home of our own and money seems to be the greatest of all.

A DIFFERENCE BETWEEN THE TWO

JUDGE Wanamaker, of the supreme court, makes a fervid appeal for respect and observance of the law. To us it seems as if he were making something of a failure here to draw a distinction here between law and right and justice.

Generally speaking the law should be respected and observed, but that is true only of good and wise laws. Sometimes laws are neither good, or wise and have no other quality than foolishness and viciousness.

If there is scantier respect for the law than there should be, this springs from two causes, the lack of desert and the failure to enforce. The law fails of commanding because it creates the rule, designates what penalties shall follow on violation and yet its other creatures, public officials, fail to impose the penalty. Nor should they always be held blameless for this as penalizing for infractions would be harsh and unreasonable.

Right and justice should be invariably respected and observed because they have the inherent quality of desert. Failure to observe them does wrong somewhere to some one. Where the law embodies them it of itself then becomes right and justice and should be held inviolate as such.

If we had only statutes that carried such embodiment and hundreds less that had no other call to being except the vain and foolish desire of legislators to have their name coupled with some measure in the assembly, there would not be occasion for Judge Wanamaker to make his plea.

Wonder when Columbus is going to quit being a village? All his papers curapture over "the pageant" produced every afternoon of the fair. As a matter of fact the alleged pageant was a sorry spectacle in which appeared a lot of ill trained and untidily costumed children, who gave a performance that the kids at the headwaters of Twin Creek could beat by several sections.

The Columbus State Journal is sorely puzzled to know what some of its friends are going to do for hating material, when Wilson retires to private life, but it is hopeful some other good Democrat and man will answer the purpose quite as well.

In his serial on management and mismanagement of city affairs it strikes us the young author has too many ifs. "If" the same thing occurs again, he tells us poor, suffering tax-payers, innumerable times, something dreadful is going to happen.

Mexico doesn't seem to know Pershing is about to return from France. Leastwise she has chosen a most unpropitious time in view of that event to again become unpretty. "Black Jack" wouldn't need much to finish that job he started out upon a couple of years ago.

Most of the American troops have been returned from Europe but the trained corps of lying correspondents seem to have been left behind. May be, though, they were born and trained over there.

That is distressful news we hear from New York. The milliners are going to have four seasons a year instead of two.

Fronton papers say the feature of the Apple Show is going to be the auto display. Then why call it an apple show!

The News says one of the points for a greater fronton is street cars running to the cemetery. Rather neat way of saying the town stands in need of some first class funerals.

A chap, who claims to be a nephew of Kaiser Bill and gives his native name as Johann Wilhelm von Loewenel Brandenburg Mohenzollen has had a Michigan judge give him permission to write it Vaughn Lionell. Sort of a contradiction in that Lionell, since he didn't have the courage to carry around the original label.

Yes, sir, it does make all the difference whether a man says what you want him to say or does not. Even at that it is amusing to hear those papers that are most gross in their reference to the President's stand on the league of nations acclamating his utterances on the railroad wage contention as "clear cut, conservative and conciliatory" to say nothing of being conclusive.

THE WISHING PLANE

BY WILIS WINTER

When Sir Spring began the story of the machine gunner Jack and Jane sat down on the floor as near to him as they could get and listened to every word.

"Our regiment was at Sartoo, then," said the British officer. "That's somewhere near the center of the British part of South Africa."

"Major Tumbler had gone west to the coast on official business and had left me in command of the regiment. I guess the natives knew this and thought it would be a good time to attack us. So, one night, when a great black cloud hid the moon they just seemed to spring up out of nowhere and there were two or three thousand of them. They killed most of our guards before the guards had time to fire a warning. But the yelling told us what was up.

"We had built a high fence—army folks call it a stockade—out of small tree trunks. This fence ran around our supply houses and the well from which we got our water. So, when we heard the natives our men ran in the stockade and began firing their rifles and machine guns through holes in the fence. We had plenty of bullets for both our rifles and machine guns at first and made it so hot for the natives that they could not get close enough to the fence to rush over and kill us. But towards morning I found that our supply of bullets was giving out."

"We can keep them away the rest of the night," said one of the other officers, "but by tomorrow night they'll have twice as many men as they have now. They'll send swift runners back into the hills to bring other tribes. And we won't have enough bullets to stop them."

"We were talking over several different plans of saving ourselves when Sergeant Yett, a man who had been with me through three campaigns in Africa, asked if he might come into the officers' tent. He said word that he had a scheme in mind to help us out."

"When we called him in he said: 'If you'll let me have a machine gun and plenty of bullets for it I'll sure I can help. They aren't going to try another attack tonight and by tomorrow night I'll be ready.'"

"We all tried to get him to explain his plan, but he wouldn't tell a word about it. He was afraid, I guess, that we would think it so foolish that we wouldn't give him a chance to try it. But we finally decided to let him attempt whatever he had in mind. He was given the best machine gun the regiment had, and half a dozen strings of bullets for it. Then we saw him slip into his tent, not far away, with the outfit. About half an hour later we saw somebody come out of Yett's tent. The somebody looked just like a native black man, and he carried a great bundle on his shoulder."

New - York - Day - By - Day

BY O. O. MCINTYRE

NEW YORK, Sept. 2.—It was 11 o'clock at night. A sleepy newsboy sat on his pile of early edition morning papers in Times Square. A policeman looked over "Today's Entries" under a drug store are light. A lone truck drove its weary way down Broadway. It was the new New York and it had gone to bed.

Day New York is an anachronism. Baped on the subway, about which O. Henry left deathless literature, is now Bagdad in a Keokuk. The lobster cathedrals and dance motques were as gayly as an old world cathedral at midnight and as ghostly.

The only flutter of life is in the coffee houses. On the ruins of the all night bar the Danish and French Viennese bakeries rear their pasty-pastry heads. Customers bring bottles of tobacco joy with them. And they try to be happy and snug of the old days when the populace did not

WHO'S WHO IN THE DAYS NEWS

PAUL S. REINSCH
Paul S. Reinsch, American minister at Peking, China, has tendered his resignation which is now in the hands of President Wilson. It has been reported that Dr. Reinsch has not been wholly in accord with the administration's attitude toward China at the peace conference but this did not appear in his letter of resignation according to reports.

Minister Reinsch was, previous to his appointment as minister to China in 1913, for twelve years professor of political science at the University of Wisconsin and for two years before that assistant professor at the same University.

He studied at the University of Wisconsin and at Paris, Berlin and Rome. He is the author of several works of political science, some of which have been translated into Chinese and Japanese.

It was largely through the assurances of Minister Reinsch that China's interests would be safeguarded by the United States that China was persuaded early in 1917 to enter the world war on the side of the allies. It is also understood that the diplomat was strongly against the Shantung arrangement incorporated in the text of the peace treaty.

have to be told by a headwater to "Whisper to me only with thine eyes."

Over on Eighth avenue the night-hawks are scattered in a backroom and now and then the burlesque creep under the bar, draws a beer and creeps back on all fours and whispers in the lull darkness "Put on that cigarette, you foolhead!"

The evolution and decline of night life in New York—except in the private clubs and homes—is an amazing spectacle to behold. It is difficult to believe that only a few years ago the scream of the sporting and political blood of the nation gathered in Harry Hill's to while the night away. Or in John Morrissey's house or at the Allen's or Kit Burd's "cockpit for gentlemen."

Drab are all the old places where the tide of life ran high. Places like Reclor's, Jack's, the Haymarket, Akron's Tirol, and Mogul's, where the Muses washed their feet in red wine till the day squad of sculptors and canvas defacers arrived for breakfast. Matsburg, Mo., on "court day" is a seething cauldron of activity compared to Broadway at midnight.

In a little sawdust eating place on Sixth Avenue, where the stout "piffawmums" of cheap vaudeville congregated, a trapeze artist and a man who throws knives at a woman standing up against a board were discussing another knife-thrower. It was evident that this knife-thrower was jealous of his rival. The trapeze artist spoke of his rivals' ability and finally the knife-thrower made this concession: "Yes, he does throw a good knife!"

The bobbed hair fad is spreading. Mrs. Castle, on account of an illness started it. Then Nazimura had her hair bobbed, and to add fires to the fad, Mrs. Earle Caruso had her locks clipped. Half the girls in New York have bobbed hair, it seems. A woman's barber shop has been opened where a head of hair is bobbed for \$5 a bob. In the men's shops there is an increasing number of "grown up babies"

"YOU CAN FOOL PART OF THE PEOPLE ALL OF THE TIME—AND ALL OF THE PEOPLE PART OF THE TIME—BUT YOU CAN'T FOOL ALL OF THE PEOPLE ALL OF THE TIME."

who want their hats cut like babies." The girls find it comfortable and also convenient, and while it was never thought that it would receive encouragement on Fifth Avenue, it has. Many women lost great quantities of their "crown of glory" during the recent epidemic and the sure cure seemed to be "bobbing." One barber in the downtown district said he averaged 10 "bobs" patronized daily and that they came up in their own lines to have the work done.

There are five quite occasional Oriental restaurants in Chinatown. These are ostensibly Chinese owned and managed. Occasionally, however, a lawsuit reveals that two owners, Cohen and Rosenthal, never could agree, so they might as well break up partnership now as ever.

DOC KOKO'S KOLUM

To the Profiteer
Rake, rake, rake,
All my hard-earned bones, O Gee!
If only I dared to utter
The thoughts that arise in me.

O, well for the millionaire,
Who has his chateau by the sea,
But the present-day bill of fare
Is mighty tough on me.

O, well for the statesman bold
Who says he'll investigate
The tale that is often told,
And all I can do is wait.

The pirate in food goes on,
My salary feeds his till,
And O, for the touch of a vanished roll

Or even a one-buck bill.
Rake, rake, rake,

The New Stenographer
I have a new stenographer—she came to work today. Two hundred words a minute seemed to her just play. I gave her some dictation—no letter to a man, and this, as I remember was her letter:

"Dear sir: I have your favor and in reply would state that I accept the offer in your recent date. I wish to say, however, that under no condition can I afford to honor your free lance proposition. I shall begin tomorrow to turn the matter out. The copy will be ready March the 10th, about. Material of this nature should not be rushed unduly. Thanking you for your favor, I am, yours very truly."

She took it down in shorthand with greatest ease and grace. Thought I, at last I have a girl worth keeping round the place. She didn't call me back, nor jump up in a flurry. I said, "Now write it out, but don't be in a hurry."

The Hemington she tackled. She struck the final key, and after thirty minutes (was this she handled me: "Dear Sir: I have the favor, and on a fly I sh, and I expect the offer as you have mentioned it. I wish to say, however, that under no condition can I afford to take of your free lance proposition. I shall be in tomorrow to turn the matter out. The cap will be red and cost 10 dollars about. Material of this nature should not be rushed unduly. Thanking you for the favor, I am, yours very truly."

"Do you think it exactly wise, Brother Johnson, to permit that child to run about bareheaded in the rain?"
"His may catch cold."
"No danger," replied Gap Johnson, of Humpus Ridge, Ark. "The little cuss has got one now."

"How fast was he going, Officer Hogan?"
"Forty miles an hour, your honor."
"What have you to say for yourself, sir?"
"Just this," replied the unhappy motorist, "If I was going forty miles an hour I wish you'd let me step outside a moment and see if I mistook somebody else's car for my driver."

Officer Rickey Knocked Down In Fight; Two Arrests Made

When Officer Pearl Rickey placed Frenchy Leveaux under arrest on Chillicothe street at nine o'clock Sunday night, "Red" Clifford took a hand and struck the officer.

A desperate encounter ensued and the pair had downed Rickey and was

setting the better of the argument when Officer Payne, attracted to the scene by the commotion, went to the aid of his colleague. Leveaux and Clifford were finally subdued, the officers using their clubs freely, and landed their prisoners in the city jail.

Leveaux was ligored up and in an ugly mood. He is said to have assaulted a man named Ed McKinley at Wm. Frederick's place and ejected from the building. His conduct in the street caused Officer Rickey to arrest him and then the fight ensued.

Clifford was released on bond. The fight drew an immense crowd and serious trouble was narrowly averted.

Meet Next Monday
The West End Improvement Association did not meet last evening on account of it being Labor Day, but will hold their regular business meeting at the usual hour next Monday evening in the Board of Trade rooms.

SOCIETY

Miss Clara Barker, Rhodes avenue, New Boston left today for Cleveland, where she will spend two weeks with relatives.

Mr. and Mrs. William Foster of Columbus are visiting Portsmouth relatives and friends.

Mr. and Mrs. Louis J. Schaeffer, of Waverly, were visitors here Saturday, attending the installation of the Chapter of Eastern Star.

Back From Columbus
Samuel Province of this city has returned from a business trip to Columbus.

Economy In Dress

People who dress well on moderate means never make the mistake of having too many garments at one time. It is better to take good care of one's belongings, brushing, cleaning and mending when necessary and then replenishing them with new as needed.

Merely Nominal Right

The freedom of the city of London carries with it, nominally, at any rate, the right to keep pigs in the parish of St. James, Piccadilly. But even were any one disposed to avail himself of this liberty, and if the sanitary authorities failed to object, land in that part of London is somewhat too costly for profitable pig-farming.

HUNTINGTON MAN SACRIFICED LIFE IN EFFORT TO SAVE LIFE OF YOUNG WOMAN

In a successful effort to save the life of Miss Pauline Thornburg, of Huntington, Louis M. Speer, Jr., also of Huntington, sacrificed his life last night when their canoe was swept into an eddy and capsized within fifteen feet of shore at Fourteenth street and the Ohio river, at the above city.

Miss Thornburg, the daughter of Mrs. Frank M. Thornburg, was forced to the surface of the water four times by young Speer, who became exhausted and sank the third time.

According to the young lady, who was present after the tragedy, Speer and she were returning from an outing on Synnes Creek and had nearly reached shore when their canoe struck an eddy. When the craft upset,

Speer showed that they were safe, as he could touch bottom. Miss Thornburg could not, and he swam to her and caught her as she was sinking. It was evidently a fog upon which Speer rested at first, as neither of them could touch the bottom afterward.

The canoe drifted a few feet. Speer tried to swim with Miss Thornburg to allow her to grasp the bank. She sank a second and third time, and each time he exerted his strength to hold her above water. No one was near the scene of the tragedy, and Speer was thrown upon his back, exhausted. After the girl had sunk four times, Speer managed to get her to the end of the canoe. Completely ex-

hausted, the young man sank, and was seized with a cramp, and slowly sank the third time, when he was drowned. An unidentified young man rushed to the aid of Miss Thornburg, after breaking the lock of a boat.

Speer's body was found at 9 o'clock last night, a few feet from where it sank. He was an expert swimmer and could have saved himself, if he had not chosen to sacrifice his life for that of his companion.

Speer was the son of Captain and Mrs. Louis M. Speer. He graduated from H. M. S. in 1918, and will be remembered in athletic circles here, having been a football star in 1917, when he played here at Millbrook.

Jewelry Store Robbed Again

Robbers seem to have taken a liking to the Crescent jewelry store on Gallia street, as the place was visited again Monday morning, about 2:30 o'clock, by a hold robber, who escaped with about \$200 worth of jewelry taken from a front display window, which was smashed by a stone. The rock was wrapped in a handkerchief, before being used to smash a good sized hole in the window. With the hole in the window, the robber had easy access to the display of jewelry.

The loss would have probably been greater had not Froie Citi, of the

fruit store, located just across the street from the jewelry store, opened his front upstairs window and yelled at the man who broke into a run down the alley just east of the store. Citi was awakened by the breaking of the plate glass window.

He rushed down stairs to the telephone to call the police, but was unable to get in connection with the police station.

A. H. Lewis, manager of the store was out of the city Sunday and Monday, arriving in the city late Monday night. When informed of the robbery

at his rooming house about two o'clock this morning, Mr. Lewis hastened to the store. After taking an inventory of the stock in the window, he found four bracelet watches, some cuff links and brooches missing, valued about \$200.

Marshal W. I. Davis and his bloodhound from New Boston, got to work on the robbery early Monday morning and followed a trail that led to the Ohio river bank near the old water works.

On August 1st, the store, along with Stewart's cut-rate pharmacy, and A. Winkel's store, were robbed. Jesse Mills, who was caught by Huntington police and who escaped from the local jail several days ago is charged with the robbery. Mills was recaptured Monday at Mayville and is being returned to this city.

Citi said today that a man about six foot tall and looking to be about 27 years of age, walked up and down in front of the store Sunday night and kept looking across the street. Mr. Lewis also said today that a man stood in front of the store about two hours Saturday night.

Jail Breaker Is Caught

Jesse Mills 40, white who with two negroes saved their way out of the county jail and escaped Friday night was apprehended yesterday at Mayville by Deputy Sheriff Harry Denham.

Receiving a tip Saturday that a man answering Mills' description had stolen a job about at South Portsmouth and had evidently gone down the river,

Sheriff Rickey early yesterday started his deputy and Lon Rickey down the Ohio to Tom Burr's neighborhood with Leslie White running the craft.

At Mayville the party came upon MFIs and the fugitive promptly surrendered. The party started on the return trip to Portsmouth late yesterday afternoon but had to tie up at Vanceburg on account of the fog.

A message from Vanceburg this morning said the party was on its way to this city.

Mills was arrested in connection with the robbery of the Crescent jewelry Co. store on Gallia street, which was broken into and robbed of property valued in more than \$800 on the night of Aug. 1.

The stolen property was practically all recovered.

SAFE AT THE N. & W. STATION IN WAVERLY CRACKED; ABOUT \$80 STOLEN

A successful safe blowing job was staged in the N. & W. station at Waverly early Monday morning, the robbers securing between \$75 and \$80 from the badly damaged safe.

The safe was blown between 12:30 a. m. and 4 a. m. Monday morning. It is thought the job was done about 12:30, the clock in the station stopped at this time. The robbery was discovered by Everett Bauer, night man, who went on duty at four a. m.

Robert Scott, night agent, left the station at 12:15.

The robber or robbers forced the station door to gain entrance to the room where the safe is located. When Bauer went to work he found the door locked, the robber or robbers having shut the door when they went out.

The combination was knocked off the safe door with a hammer. Mrs. Gleed is thought to have been used as all the current packing in the safe was torn loose.

Andy Leslie, N. & W. detective went to Waverly Monday morning to work on the case but did not find any clue. Several years ago the safe was blown.

SPORT WRITER, PIQUED BECAUSE GIANTS ARE OUT OF RACE POKES FUN AT REDLAND ROOTERS

Indicative of the sportsmanship of Second Lining—Joe Jackson knocked Vanille-on-the-Hudson, the only city of the last out of the lot for what on the two major league circuits threatened to be a home run, but just when top bottles were thrown at him he was rounding third base a pick-wasting players, during the presented signal from the Cincinnati Schenck season, the following is reported: Joe Vanille opened fire, and Jackson

The probability that at least part of the crowd was cheering this fine steps might be taken for the visiting Cincinnati Empire. Cincinnati fans are much more Federal a lot on bulls. A number of persons that unless there is a condition of federal troops throwing around the grounds the account of the surviving umpire, declared that game by innings will read something like this:

First Lining—Bartlett singled to the home plate and was hit over the head by a fan.

Second Lining—Bartlett was about to be hit by a fan when Ruffery, the first baseman, caught the ball and threw it to first base.

Third Lining—Bartlett was about to be hit by a fan when Ruffery, the first baseman, caught the ball and threw it to first base.

Fourth Lining—The crowd descended into the field with a copy of the Cincinnati Empire, the only city of the last out of the lot for what on the two major league circuits threatened to be a home run, but just when top bottles were thrown at him he was rounding third base a pick-wasting players, during the presented signal from the Cincinnati Schenck season, the following is reported: Joe Vanille opened fire, and Jackson
